PROFILE, Junior

EXPERIENCES PROFESSIONNELLES

avr. 2023 / août 2023

Data Analyst/ML Intern

I3S Research Lab, France

- * Implementation of Algorithms using Python and visualizing through Tableau.
- * Conducted experiments on time series data using Machine Learning, fb prophet and Numpy.
- * Conducted performance experiments via Pipelines and Kafka on google cloud via docker to evaluate the microservice application's efficiency in scaling in credit card payments.

janv. 2023 / mars 2023

Case Study - INRIA (National Research lab of France)

- * I worked in collaboration with Professor.Cornelli. We developed a classifier which assigns each wood image to a class/family, using Machine Learning and Deep Learning.

déc. 2022 /

House Prediction

- * I Predicted house prices around the area using python and machine learning algorithms.

nov. 2022 /

Deezer Hip-Hop music evolution using R

- * I preprocessed data using R and visualized the evolution of data using Tableau.

mai 2022 / déc. 2023

Data Analyst Freelance

Client on Upwork- Prospkt

- * Managed the whole project cycle from the scratch to production fetched data by SQL, applied machine learning algo using python and API testing using Postmen.
- * I have fetched and processed data using SQL of 5 million people on Elasticsearch and for visualization of data I used Tableau.

déc. 2020 / août 2022

Application Development Analyst

Accenture,Pune

- * Extraction, Transformation and Visualization of data using SQL,Pyspark and tableau of around 500,000 users per week from SAP cloud and Database.
- * Gave insights to the Marketing team in Argentina and improved results after discussions
- * Developed bots in SAP S/4 hana using python to automate the daily tasks and enhance the productivity.

DIPLOMES ET FORMATIONS

sept. 2016 / juin 2020

Bachelor's Computer Science and Engineering; DSTI - MSc Data Analytics - BAC+3

COMPETENCES

Apache Airflow, Data Analytics, Data Analyst, Kafka, SAP, Database, Cloud, Application Development,

Deep Learning, Docker, Elasticsearch, google cloud, machine learning, machine learning algorithms, Numpy, pandas, prophet, Pyspark, Python, SAP S/4 hana, sql, Tableau, Computer Science, API testing, Excel VBA, data visualization

COMPETENCES LINGUISTIQUES

Anglais
